The first introduction of a cleanser in our Ultimate range.

A luxurious Australian jojoba cleansing oil for the face and eyes. It effectively yet gently melts away makeup, excess sebum and dirt to leave the skin clean, nourished, supple and soft. This cleanser is enriched with sunflower seed oil to nourish and help skin maintain moisture, plus antioxidant-rich and skin brightening mandarin, which promotes a radiant, healthy-looking glow.

This cleansing oil can be applied directly to dry skin for a 1 step make up remover and cleansing or as a pre cleanser to remove make up. It activates upon contact with water into a milky emulsion that easily rinses away without stripping the skin of its essential moisture or leaving a residue leaving skin hydrated, clean and luminous.

Helps Skin Help Itself

Jojoba is unlike any oil, because it's not one. It's the only plant to store liquid wax in its seeds. Sharing the same molecular structure as the natural wax esters found in healthy human skin, making it more receptive to receive vital nutrients and antioxidants, restoring balance, and helping your skin behave as it was always designed to do.
