

Hand Sanitiser Gel 80%

Alcohol based hand sanitiser

Description

Hand Sanitiser Gel 80% is a thick luxurious gel used to quickly kill germs on hands while leaving skin feeling fresh and soft.

Features and Benefits

- 80% ethanol formulation to ensure optimal sanitisation.
- Thick luxurious gel prevents the product from running off hands.
- Fragrance-free and non-sticky formulation.
- Contains glycerine to protect and condition the skin.
- Ideal to be used through Chemform's Pure Skincare dispensers.
- Ideal product for all industries including education, hospitality, facilities management, mining, transport, workshops, sports clubs, gyms and more.

Use Directions

Apply sufficient Hand Sanitiser 80% Gel undiluted onto hands and rub well to thoroughly cover all surfaces including fingernails, thumbs, fingers and wrists. Allow to completely dry before touching any other surface.

Safety Information

Hand Sanitiser Gel 80% is classified as HAZARDOUS according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) criteria of Safe Work Australia and is classified as a DANGEROUS GOOD according to the Australian Dangerous Goods Code. Refer to our safety data sheet (SDS) for more or consult your Chemform representative for further assistance.
