Quench thirsty skin with this rich, multi-use balm for face and body. Infused with Wadi-Wadi Jojoba, calming Calendula and Centella, & a trio of phyto butters for deep hydration along with clinically proven GAIALINE® to boost ceramides & reduce wrinkles. Ceramide Complex CLR™ PE-F strengthens the skin barrier, while vegan lanoline alternative and phyto wax seal and feed the skin.

Key Benefits

- Nourishes
- Soothes
- Repairs

Application

Apply evenly to the entire face morning and night, or whenever skin feels dry. Suitable for both face and body

KEY INGREDIENTS

- **Gaialine®** – a ceramide booster concentrate derived from linseed oil an eco-designed active ingredient obtained by molecular distillation that slows down skin aging and protects, strengthens and regenerates the skin
- **Ceramide Complex CLR™ PE-F** – a plant derived ceramide complex that supplies skin with structural elements and supports the recovery and maintenance of the skin's healthy barrier function and water-holding capacity.
- **BIS-DIGLYCERYL POLYACYLADIPATE-2** – a vegan lanolin alternative. It is used as an emollient to soften and smooth the skin. Helps to seal in moisture and deeply hydrates.
- **Gotu Kola (Centella asiatica)** – boosts collagen production to reduce the appearance of aging. Calms irritation and protect against environmental stressors. It improves skin hydration by strengthening the skin barrier and retaining moisture.
- **Calendula** – soothes irritated and sensitive skin, hydrates dry patches, reduces redness, and helps with skin irritations. Additionally, it may help protect against premature aging and support skin firmness.
- **Mango Butter** – combats signs of aging, fights free radicals, boosts collagen production, soothes skin irritations
- **Cocoa Butter** – intensely hydrates, locks in moisture, creates a protective barrier over the skin, keeps skin supple, calms and soothes skin, fights signs of aging
- **Shea Butter** – restores lipids, locks in moisture, soothes irritation, calms redness
