

Product Information Sheet

Revive

Citrus disinfectant/deodorant cleaner

Description

REVIVE is a specially formulated product containing fragrances and natural citrus oils designed to kill dangerous bacteria and leave the area smelling clean and fresh. REVIVE is suitable for use in toilets, washrooms, bars, food and garbage disposal areas, rubbish bins, drains, animal houses and other areas where odours are a problem. Revive was independently tested under the TGA instructions for testing a commercial disinfectant (method EN1276 - *S. aureus*, *E.coli*) and kills 99.99% of germs at a contact time of 1 minute. *Refer Revive Test Data - 2020 report (available on request).*

Features and Benefits

- Provides a clean, fresh fragrance, which is slowly released over a period of time.
- Revive contains powerful disinfectants which actually kill bacteria that cause malodours.
- The product is neutral and is safe to use on all washable surfaces.
- Revive is safe for septic tanks and sewerage treatment plants, will not affect aerobic activity in industrial settling ponds and will not be detrimental to marine life when used in accordance with label directions.
- 99.99% of germs at a contact time of 1 minute.

Use Directions

General Cleaner

Mix 20 - 50mL of REVIVE per litre of water. Spray or mop the area. Remove any excess moisture. Allow to air dry. There is no need to rinse surfaces treated with REVIVE.

Air Freshener

Add 50mL of REVIVE to a spray bottle. Fill up with fresh water. Adjust nozzle to produce a fine mist and spray in the air.

Safety Information

REVIVE is classified as NON HAZARDOUS according to the criteria of Safe Work Australia and is classified as a NON DANGEROUS GOOD according to the Australian Dangerous Goods Code. Refer to our safety data sheet (SDS) for more information or consult your Chemform representative for further assistance.
