

A collapsible, silicone snack cup for messy but oh-so-cute little eaters

As much as we love them and their surprise kisses, we all know how grubby mealtimes can get. From vegemite-inspired smeared works of art, to mysterious bikky-lookalike confetti, it can be a chaotic fest. If only their messy trails would magically disappear with a snap of your fingers...

Well, we've got the next best, sanity-saving solution. Featuring a no-spill, flinging-friendly design, the Smooosh collapsible snack cup works hard to keep all the munchies inside the cup. Folding down flat, it's light and wondrously portable for when you're on the go. Made from BPA-free, food grade silicone, it's gentle on little hands and free from nasties.

Available in four colourways, the collapsible silicone snack container comes with a handle for stubby fingers and pram hooks. Happy belly? Replace the lid to keep the snacks free from yuck and dust. Plus, it's super easy to clean – phew!

From playroom to playground, make snack time less of a chore with the Smooosh collapsible snack cup.
